ABSTRACT

Results of a survey of salaries of full-time administrators at public, doctorate-granting institutions for 1983-1984 are presented. A ranking of salaries paid among 133 universities in 45 states is presented, along with salary data arranged into nine regions defined by the Equal Employment Opportunity Commission. The New York and Boston regions are combined. A table of salaries paid to university system officers is also included. A university system is defined as having a separate administrative structure for a system of multiple general academic institutions, at least one of which has offerings at the doctorate-granting level. Questionnaires were returned by 33 university systems in 28 states. Information is provided on whether a salary is paid for a position with a dual function. To provide anonymity, the universities are not identified with their salaries, but are listed separately. (SW)

A RANK-ORDER DISTRIBUTION OF TWELVE-MONTH ADMINISTRATIVE SALARIES

INTRODUCTION

This study is the seventeenth annual administrative salary survey conducted by the University of Arkansas. The universities invited to participate comprise a representative group of public, doctoral-granting institutions. To provide anonymity, the universities are not identified with their salaries. Also, when the number of respondents for a particular position was less then three, the data were omitted.

The salaries are distributed in rank order to facilitate comparisons of a participant's relative standing with other universities. A salary enclosed in parentheses identifies that salary as being paid for a position with a dual function. Salaries within parentheses are included in the position average. If two salaries were reported for one position, both salaries are included under that position title. Several salaries in Table I are also coded with an asterisk. The asterisk indicates that the salary is from an institution which is a member of the National Association of State Universities and Land-Grant Colleges (NASLUGC).

Salaries are reported only for full-time administrators. The study includes officers whose responsibilities and function range from the director of a single office to the university president. Reporting guidelines provided with the questionnaire have enabled the inclusion of these salary data, with few exceptions, exactly as reported by the responding institutions.

The University of Arkansas wishes to thank all respondents for participating. The primary purpose of this study has always been to provide comparable and comprehensive information in a timely manner that will be useful to participants, particularly in the preparation of annual budget requests.

A RANK-ORDER DISTRIBUTION OF TWELVE-MONTH ADMINISTRATIVE SALARIES

DESCRIPTION

TABLE I

The first section provides the ranking of salaries paid among all participating universities. Questionnaires were sent to one hundred sixty-four universities in fifty states. From this group, replies were received from one hundred thirty-three institutions in forty-five states.

Several salaries in this section have been printed with an asterisk. The asterisk indicates that the salary is from a university which is a member of the National Association of State Universities and Land-Grant Colleges (NASULGC).

TABLE II

The second section is a series of tables showing the salaries paid among the one hundred thirty-three participants arranged into the nine regions defined by the Equal Employment Opportunity Commission (the New York and Boston regions are combined). The responding universities in each region are enumerated at the beginning of the appropriate section.

TABLE III

The third section of the study is a table of salaries paid to university system officers. For purposes of this survey, a university system is defined as one which has a separate administrative structure for a system of multiple general academic institutions, at least one of which has offerings at the doctorate-granting level. Questionnaires were sent to forty-one university systems in thirty-three states, and replies were received from thirty-three university systems in twenty-eight states.
